

### July 2017

Council considered the results of the questionnaire at the 21 June 2017 meeting. At this meeting, Council resolved to:

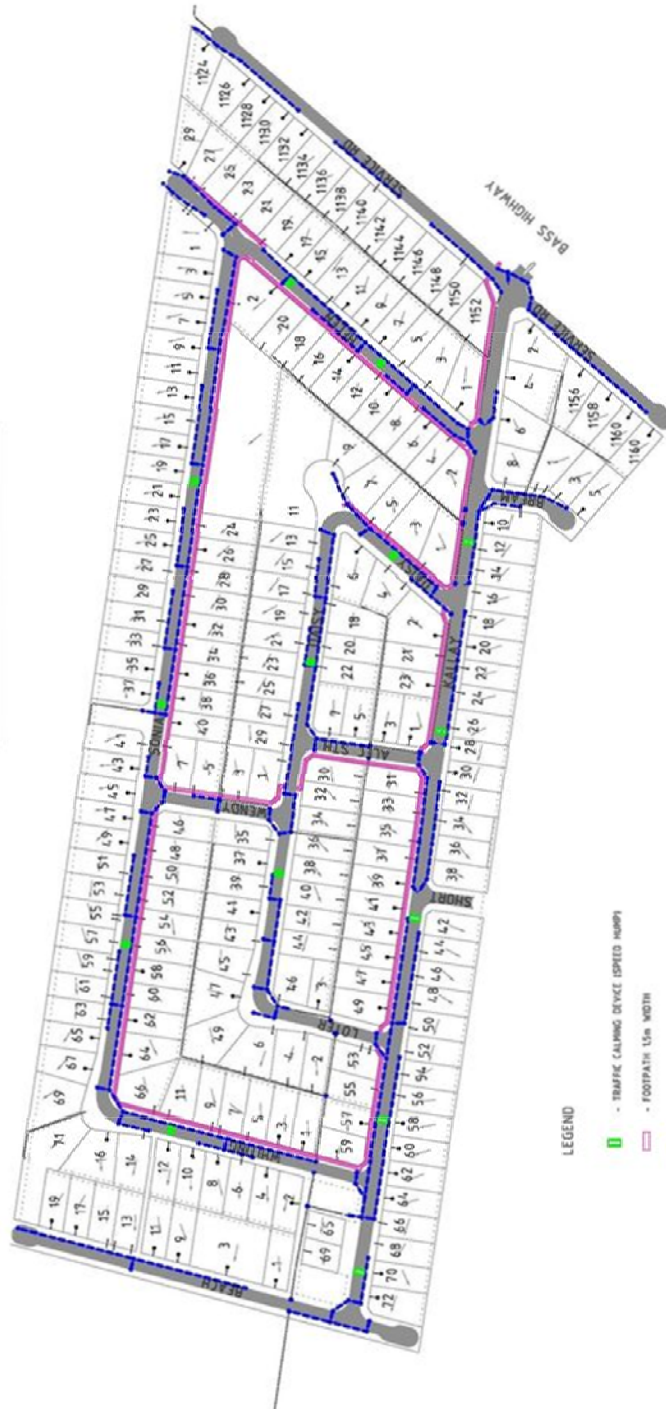

- Adopt Option I for full upgrade of roads and drainage including speed humps for local area traffic management and pedestrian pathways on selected streets only - as the approved design for any proposed upgrade to infrastructure within the Pioneer Bay area.
- Advise property owners within the Pioneer Bay area that any future upgrade of infrastructure within the Pioneer Bay area as per Option I for the full upgrade of roads and drainage including speed humps for local area traffic management and pedestrian pathways on selected streets only - will be dependent on being partly funded by property owners in accordance with Special Rates and Charges provisions of the Local Government Act 1989.
- Consider a further report to Council at a future Meeting of Council, detailing the proposed funding model for the implementation of Option I for the full upgrade of roads and drainage including speed humps for local area traffic management and pedestrian pathways on selected streets for the Pioneer Bay area.
- Advise property owners via post of Council's decision.

As a result of Council's decision Option I was adopted.

Following the feedback received in the questionnaires there were some changes made to the design options which attributed to the removal of the roundabout and the addition of a speed hump. Revised plan for Option I can be found in the image below.

A Report will be prepared for a proposal funding model and implementation of Option I. This report is anticipated to be presented to Council at the Ordinary Council Meeting on 21 September 2017, at Wonthaggi.

# LAYOUT 1 ROAD - SPEED HUMPS ONLY & PATH - MAIN ROADS

## LEGEND

- TRAFFIC CALMING DEVICE (SPEED HUMPS)
